English Transcript	Tradução
My husband and I would randomly joke sometimes, like "I bet these devices are listening to what we're saying."	Meu marido e eu costumávamos brincar aleatoriamente às vezes, dizendo "Aposto que esses dispositivos estão ouvindo o que estamos dizendo."
Until recently, Danielle's home was completely wired up in every room with the Amazon Echo.	Até recentemente, a casa de Danielle estava completamente equipada em cada quarto com o Amazon Echo.
Her family used the Alexa app to do everything from turn up the heat to turn off the lights.	Sua família usava o aplicativo Alexa para fazer tudo, desde aumentar o aquecimento até desligar as luzes.
But Danielle told us via Skype that two weeks ago, their love for Alexa changed with an alarming phone call.	Mas Danielle nos contou via Skype que, duas semanas atrás, seu amor pela Alexa mudou com um alarmante telefonema.
That person was one of her husband's employees, calling from Seattle.	A ligação era de um dos funcionários do marido dela, ligando de Seattle.
He proceeded to tell us that he had received audio files - recordings from what was going on in our house.	Ele nos disse que havia recebido arquivos de áudio — gravações do que estava acontecendo em nossa casa.
Danielle says her Amazon device in her Portland home recorded a private conversation and sent that recording to a random contact, which happened to be the employee in Seattle.	Danielle diz que o dispositivo Amazon em sua casa em Portland gravou uma conversa privada e enviou essa gravação para um contato aleatório, que por acaso era o funcionário em Seattle.
Danielle listened to the conversation, and she couldn't believe someone 176 miles away heard it too.	Danielle ouviu a conversa, e ela não podia acreditar que alguém a 176 milhas de distância também a tenha ouvido.

English Transcript	Tradução
"I felt like, immediately, I can't trust it."	"Imediatamente senti que não podia confiar."
Danielle unplugged all the devices and she repeatedly called Amazon.	Danielle desligou todos os dispositivos e ligou repetidamente para a Amazon.
She says an Alexa engineer investigated.	Ela diz que um engenheiro da Alexa investigou.
"Our engineers went through all of your logs. They saw exactly what you told us, exactly what you said, what happened, and we're sorry. We're sorry."	"Nossos engenheiros passaram por todos os seus registros. Eles viram exatamente o que você nos contou, exatamente o que você disse, o que aconteceu, e pedimos desculpas. Pedimos desculpas."
He apologized like 15 times in like a matter of 30 minutes and said, "We really appreciate you bringing this to our attention. This is something we need to fix."	Ele se desculpou umas 15 vezes em questão de 30 minutos e disse, "Nós realmente apreciamos que você tenha nos trazido essa questão. Isso é algo que precisamos consertar."
Did he tell you why it happened?	Ele te disse por que isso aconteceu?
"He said that the device guessed what we were saying."	"Ele disse que o dispositivo adivinhou o que estávamos dizendo."
When we asked Amazon questions, they sent this response: "Amazon takes privacy very seriously. We investigated what happened and determined this was an extremely rare occurrence. We are taking steps to avoid this from happening in the future."	Quando fizemos perguntas à Amazon, eles enviaram esta resposta: "A Amazon leva a privacidade muito a sério. Investigamos o que aconteceu e determinamos que isso foi um acontecimento extremamente raro. Estamos tomando medidas para evitar que isso aconteça no futuro."
[...] in the privacy of their home, they have conversations that they're not expecting to be sent to their address, though.	[...] no interior da privacidade de sua casa, eles têm conversas que não esperam ser enviadas para seu endereço.
