The Hedgehog's Dilemma	O Dilema do Porco-espinho
During the Ice Age, many animals died from the cold.	Durante a Era Glacial, muitos animais morriam por causa do frio.
The hedgehogs, realizing this situation, decided to get together in groups, thus wrapping up and protecting each other.	Os porcos-espinho, percebendo esta situação, resolveram se juntar em grupos, assim se agasalhavam e se protegiam mutuamente.
But the quills of each one hurt the closest companions, precisely those who gave them warmth.	Mas os espinhos de cada um feriam os companheiros mais próximos, justamente os que lhes forneciam calor.
And that's why they were moving away from each other again.	E, por isso tornavam a se afastar uns dos outros.
They froze to death again and had to make a choice: they would disappear from the face of the Earth or accept the quills of their fellow beings.	Voltaram a morrer congelados e precisavam fazer uma escolha: desapareceriam da face da Terra ou aceitavam os espinhos do semelhante.
Wisely, they decided to come back and stay together.	Com sabedoria, decidiram voltar e ficar juntos.
Thus, they learned to live with the small wounds that a very close relationship could cause, since the most important thing was each other's warmth.	Aprenderam, assim, a conviver com as pequenas feridas que uma relação muito próxima podia causar, já que o mais importante era o calor do outro.
